

“Invent Your Own Sport” Project Rubric

Student Name: _____

Points Earned

Requirement

Your project meets the basic expectations for all work in this class:

_____ / 5

- You included your name on your assignment.
- Your work is typed or written neatly.
- You explained your thinking with a great attention to detail.
- You gave your best effort.

Map of Your Playing Surface

_____ / 5

- Design a map that outlines the basic shape and set-up of your sport’s playing surface.
- Label the dimensions on your map. How long is your surface? How wide?
- Mark any important lines or other shapes on the surface that are connected to your rules and regulations, including any “scoring areas.”

How to Keep Score

_____ / 5

- Create a system for keeping score in your sport.
- What are plays that will earn you points? Is there more than one way to earn points?
- How many points for each play?

Rules and Regulations

_____ / 5

- Write a list of rules and regulations for your sport. Be specific about what you can and cannot do to compete in your game.
- Is it a team sport or an individual sport? If it’s a team sport, how many people can be on a team? How many can be out on the playing surface at a time?
- What happens if you break a rule? Does your sport have penalties?

_____ / 20
