Math 8 - 1st tri
Warm-up Check #1

For our first warm-up, please simplify the algebraic expressions below.

1.) $10x + 13 - 6x + 4$

2.) $5(x + 4) + 2x$

Friday, September 28, 2018

Please make sure you have all math materials, including your practice journal! For today's warm-up, simplify the algebraic expressions.

1.) $6(3 - y)$

2.) $15x + 8(11 - x)$

Monday, October 1, 2018

Please make sure you have all math materials!
For today's warm-up, simplify the algebraic expressions.

1.) $3x - 9 + 11x - 21$

2.) $9x - 3(x - 4)$

Tuesday, October 2, 2018

Please make sure you have all math materials!
For today's warm-up, simplify the algebraic expressions.

1.) $8x - 5 + 9x - 13$

2.) $7x - 5(x - 3)$

Wednesday, October 3, 2018

Please make sure you have all math materials and get started on today's warm-up:

The figures are similar. Find x .

Thursday, October 4, 2018

Don't stress about turning in the homework.
For today's warm-up, solve these equations.

1.) $y + 7 = 12$ 2.) $10 = m - 5$

3.) $8k = 24$ 4.) $\frac{x}{2} = 11$

Friday, October 5, 2018

Make sure you have all math materials!

For today's warm-up, solve these equations.

1.) $23 = k + 9$ 2.) $-3m = 18$

3.) $\frac{x}{5} = 7$ 4.) $y - 12 = 20$

Monday, October 8, 2018

Make sure you have all math materials!

For today's warm-up, solve these equations.

1.) $3x + 9 = 27$

2.) $-7y - 10 = 4$

Tuesday, October 9, 2018

Make sure you have all math materials!

For today's warm-up, solve these equations.

1.) $-4x + 5 = 37$

2.) $6y - 8 = 16$

Wednesday, October 10, 2018

For today's warm-up, find the ratio (red to blue) of the perimeters and the areas of the similar triangles. Write your answers in simplest form.
